TRADE MARK.—Sanctioned by H. M. Government.

HEALTH, STRENGTH, &amp; ENERGY.

Trade Mark—PHOSPHODYNE.  
DISCOVERED AND SO NAMED, A.D. 1862,

BY R. D. LALOR, M.D.

DR. LALOR'S PHOSPHODYNE is a Pure Solution of PHOSPHOROUS in combination with the Vegetable Alkaloids Quinine, Cyniprin, Xanthoxylon, &amp;c., prepared by a Chemical process known only to DR. LALOR, producing a remarkably elegant and pleasant tasting Preparation, equal to the best wines, professedly free from Stomachic and all other dangerous Active Drugs; superseding the numerous objectionable forms of Phosphorous Pills, Pills, Oils, and other nauseous Mixtures with which the Market has been flooded since the Phosphoric Treatment of Disease was first made Public by DR. R. D. LALOR, in 1862.

To Residents in India, China, and the Colonies, it will prove invaluable as a RELIABLE Liver Tonic and a Vitalizing Restorative.

This Phosphoric combination, the Wonder of Modern Chemistry, is pronounced by the most eminent members of the Medical profession to be unequalled for its power in replenishing and elaborating the Vitality of the Body; by its supplying all the essential constituents of the BLOOD, BRAIN, and NERVE SUBSTANCE; and for developing all the Powers and Functions of the system to the highest degree; by its being agreeable to the palate, and innocent in its action. While retaining its wonderful properties, it acts as a Specific, surpassing all the known THERAPEUTIC AGENTS of the PRESENT AGE, for the SPEEDY and PERMANENT CURE of all derangements of the Nervous and Blood Systems, Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity for Study or Business, Noises in the Head and Ears, Loss of Energy and Appetite, Indigestion and Liver Complaints, Flatulence, Nervous Fancies, Hypochondria, Nervous Delicity in all its Stages, Loss of Memory, Softening of the Brain, Paralysis, Affections of the Spinal Column, Lumbar, Sciatica, Affections of the Kidneys, Bladder, Urinary Deposits, &amp;c., Ague, Spasms, Asthma, Consumption, Chronic Bronchitis, Scrofula and Skin Diseases, Rickets (in children), Wasting, Withering of the Muscles, Impaired Nutrition, Impoverished Blood, Premature Decline, and all morbid conditions of the system, dependent upon the deficiency of THE VITAL FORCES, whether arising from Climate, Brain Fag, or whatever cause.

Dr. Lalor's PHOSPHODYNE being a natural RESTORATIVE, its Energising Effects are not permanent by corresponding rotation; but are Permanent; and are frequently shown from the first day of its administration by a remarkable increase of Nervous Power, with a feeling of Vigour, Strength, and Comfort, to which the patient has long been accustomed. DR. LALOR'S PHOSPHODYNE gives back to the Human structure in a suitable form the Phosphoric or Lively Animating element of life which has been wanted, and exerts an important influence directly on the BRAIN, SPINAL MARROW, and NERVOUS SYSTEM, of a Positive, tonic, and invigorating character; thereby checking all wasting of the Vital Fluid, and the more exhausting Processes of Life, maintaining that buoyant Energy of the Brain and Muscular System which renders the Mind, cheerful, happy, brilliant, and energetic; entirely overcoming that dull, inactive and sluggish disposition which many persons experience in all their actions. A Marvellous Restorative for Brain Tumors, Osteopetrosis, Business Men, and all who are engaged in the competitive struggle.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. Collis Browne was undoubtedly the Inventor of Chlorodyne, that the story of the Defendant, Froman, being the Inventor was deliberately untrue; which he regretted had been sworn to. eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prosecute it largely, and mean no other than Dr. Browne.—See Times, July 12, 1864.

The public, therefore, are cautioned against using any other than Dr. J. Collis Browne's CHLORODYNE.

REMEDIAL USES AND ACTION.— This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the system of the body, without causing any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most exclusively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectively checks and arrests those too often fatal diseases—diaphritis, fever, croup, ague.

CHLORODYNE acts like a charm in diarrhoea, and is the only specific in cholera and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &amp;c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service for Cholera was Chlorodyne.—See Lancet, Dec. 31, 1864.

From Mr. Balfour, Esq., late Inspector of Hospitals, Bombay, that Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collis Browne's CHLORODYNE was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera.

"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Pharmaceutical Journal*, August 1, 1869, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr. J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &amp;c.

DR. J. COLLIS BROWNE'S CHLORODYNE (Ex Army Med. Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. Collis Browne was undoubtedly the Inventor of Chlorodyne, that the story of the Defendant, Froman, being the Inventor was deliberately untrue; which he regretted had been sworn to.

Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prosecute it largely, and mean no other than Dr. Browne.—See Times, July 12, 1864.

The public, therefore, are cautioned against using any other than Dr. J. Collis Browne's CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the system of the body, without causing any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most exclusively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectively checks and arrests those too often fatal diseases—diaphritis, fever, croup, ague.

CHLORODYNE acts like a charm in diarrhoea, and is the only specific in cholera and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &amp;c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service for Cholera was Chlorodyne.—See Lancet, Dec. 31, 1864.

From Mr. Balfour, Esq., late Inspector of Hospitals, Bombay, that Chlorodyne

is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly

every case of Cholera in which Dr. J. Collis Browne's CHLORODYNE was administered,

the patient recovered.

Extract from the General Board of

Health, London, as to its efficacy in Cholera.

"So strongly are we convinced of the

immense value of this remedy, that we

cannot too forcibly urge the necessity of

adopting it in all cases."

See leading article, *Pharmaceutical Journal*, August 1, 1869, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr. J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical

testimony accompanies each bottle.

## THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of *Notes & Queries* on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or *Notes and Queries on the Far East*, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelago, and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a résumé in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review department.

Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queriers) and are also those queries which though seeking information, furnish news or up-to-date details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The *China Review* for July and August, 1876, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a state. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty-paged, bi-monthly, repository of what scholars are ascertaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the review. Address *China Review*, Hongkong.—Northern Christian Advocate (U.S.)

Truson's Oriental Record contains the following notice of the *China Review*:—"This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of *Notes and Queries* on China and Japan, the extinction of which until a year or two ago had been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the *Calcutta Review*. The greatest degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now conspicuously cultivated and who are severally represented in the first number of the *Review* by papers highly creditable to their respective authors. In a paper on Dr. Legge's *Shih King*, by the Rev. E. J. Ellis, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese post-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the *Review*, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queriers" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the *China Review* may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine."

## THE CHINESE MAIL.

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the governors and securities necessary to place it on a business and legal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan, from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese,—consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of them.

The field open to a paper of this description—conducted by native efforts, but progressive and anti-obstructive in tone—is almost limitless. It on the one hand commands Chinese belief and interest while on the other deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials with Local, Shipping, and Commercial News and Advertisements.
